Experience

Technical Solution Specialist

Microsoft

Sep 2015 – Present • 1 yr 5 mos • Copenhagen Area, Capital Region, Denmark

I am responsible to help enteprise companies realize the value of their technological ecosystems. I support in helping sell new technology by giving workshops and structure meaningful demos to help quantify business value. Much of my time is spent discussion how companies can take their existing Microsoft and Non-Microsoft technologies and with Dynamics CRM create a foundation where their company can take predictable, transparent actions with measurable outcomes.
